Volume 12

	Page		Page
Asling, C. Willet	43, 55	Grosch, Daniel S.	243
Barrett, Rachel	69	Hanks, John H.	69
Becks, Hermann	43, 55	Kohn, Pavel	149
Bloch, Robert	271	Koneff, Alexei A.	33
Bonham, Kelshaw	107, 203	Latimer, Homer B.	123, 285
Braun, Armin C.	255	Li, Choh Hao	15, 33, 39, 43, 55
Carlo, Pierre	157	Margoliash, E.	1
Collins, Daniel	55	Mandle, R. J.	255
Corder, Robert L.	271	Mayer, Jean	341
Doljanski, L.	1	Murphy, Edward A.	311
Donaldson, Lauren R.	107, 203	Pickering, Virginia L.	157
Dufrenoy, Jean	157	Pratt, Robertson	157
Dunn, M. S.	311	Sah, Peter P. T.	157
Evans, Herbert M.	15, 33, 39, 43, 55	Seymour, Allyn H.	107, 203
Foster, Richard F.	107, 203	Simpson, Miriam E.	15, 33, 39, 43, 55
Gates, G. E.	165	Tenenbaum, E.	1
Gey, George O.	69	Welander, Arthur D.	107, 203
Ghidoni, Mother Bonaventure	181	Williamson, Martin B.	145

Subject Index

	Page
Abnormalities in salmon larvae following irradiation	207
Acetone-desiccated chicken hearts	5
Acidophils, decrease in number and size of	37
Adenofibromata	30
Adrenals	24
Basophils, pituitary, decrease of	37
Blood counts in animals injected with pituitary hormone	32, 33, 34, 36
Blood counts in irradiated salmon larvae	231
Body growth and organ changes	15
Cat, prenatal growth of	123
Caudal vertebrae	52
Cell division in earthworms	170
Cell files, formation of	276
Cell growth	2
in earthworms	170
Cell size in haploid males of *Habrobracon*	251
Cell strains	73
Cellular differentiation	271
Cellular specificity and individuality	283
Changes in relative weights of organs in the prenatal cat	123
Chemical components of the body	39
Chemical nature of cell growth	11
Chick hearts, extracts of	1
Children, growth of	145
Chromophobes, increase in number	3
Condyle, distortion of	62
Costochondrial junction	49

Page
Crown gall, inactivation of tumor inducing principles in 255
Decrease in fat in pituitary-injected rats 39
Dentition, effect of pituitary growth hormone on 55
Development of secretory cells of *Ricinus* 271
Dialysis, effect of 1
Diet, criterion of adequacy 347
Digestive system, weights of 290
Digestive tube in fetal dog 298
Dog, growth in fetal 285
Duration of larval instars in braconids 252
Earthworms, normal growth of 165
  regenerative growth of 165
  segment formation in 165, 180
Effects of Roentgen rays on salmon embryos 203
Embryonic extract, concentrations of 92
  effect on cell growth 11
Endocrine and reproductive organs 22
Erythrocytes, effect of X-ray on 107
Fetal dog, growth of digestive system in 285
Fibroblasts 88
Fibromata 33
Fingerling salmon 107
Fish embryos, effect of x-radiation on 107
Fungi, action of salicylacetone on 158
Germ cells, irradiation of 236
Germinal epithelium, growth of 26
Giant cells 98
Gigantism in normal rats 15, 33, 43, 55
Growth
  abnormalities following X-ray 207
  body 15
  cellular 2, 5
  effect of tissue extracts on 1
  embryonic 123
  postembryonic 179
  pre-weaning 311
  rate of 32
  retardation of 69
  root 162
  somatic 16
Growth characteristics of rats on synthetic diet 341
Growth cycles 326
Growth equations as a function of time 348
Growth hormone, pituitary . . . . . 55 ff.
Growth of calvarium 63
    children in the first year of life 149
    digestive system in the fetal dog 285
    earthworms 165
    fibroblast colonies 3, 4, 6, 7, 8, 9, 10
    Habrobracon 243
    haploid larvae 244
    liver 145
      in rats 145
      in fetal dog 292
    malignant cells in culture 69
    mammary glands 26
    mandible 56
    maxilla 56

Page

normal cells in culture 56
potato tubers 160
teeth in rats 66
tibia 45
Growth of salmon larvae following irradiation 211
Growth of setae 169
Growth of the liver in fetal rats 145
Growth promoting factors 1
Growth regulating action of salicylacetone 157
Habrobracon, growth in 243
Hypercementosis 67
Hypertrophy of thyroid gland in tadpoles 193
Idioblasts 273
Increase in organ weights in fetal dog 306
Influence of diet on pre-weaning growth 315
Influence of temperature on primary explants 88
Influence of temperature on transferred cultures 91
Inhibition of development of primordial germ cells following irradiation . . 241
Injury to tissues in irradiated salmon 224
Lactation index in rats 317
Larval stages of *Habrobracon* 248
Liver, growth of 145, 292
Maintenance of mammalian tissue cultures 103
Malignant transformation and temperature in crown gall 261
Mammary glands, growth of 26
Mammary tumors 30
Mandible, growth of 57
Maxilla, growth of 57
Metabolic levels in tisue culture 103
Mortality in salmon larvae following irradiation 209
Mortality in X-rayed salmon 117
Organ weights, prenatal 141
Osteogenesis 53
Percentage of ash in hormone-injected rats 41
Phenylthiourea, effect on tail regeneration 188
Pigment development in irradiated salmon larvae 216
Pigment formation in earthworms 168
Pituitaries, histological changes in 33
weight of 34
Pituitary growth hormone 15, 33, 39, 43, 55
Planth growth, effect of salicylacetone on 163
Postembryonic growth in earthworms 179
Potato tubers, growth of 160
Prenatal growth of the cat 123
Pre-weaning growth of the rat 311
Rate of growth 32
Rats, gigantism in 14, 33, 39, 43, 55
Rats, growth of fetal liver in 145
Rats, injected with growth hormone 17, 18, 19
Rats, pre-weaning growth of 311
Reproductive system 24
Retardation of cell growth 69
Roentgen rays, effect on salmon embryos 203
Roots, effect of salicylacetone on growth of 162
Salicylacetone, growth regulating action of 157
Salmon larvae, effects of radiation on 203
Secretory cells, "de novo" formation of 276
Secretory cells in *Ricinus* 275

Page
Segment formation in earthworms 165, 180
Segment formation, inhibition of 171
Setae, growth of 169
Size increase in parasitic hymenopterous larvae 249
Skeletal changes in pituitary-injected rats 43, 55
Skull, effect of pituitary growth hormone on 55
Somatic growth 16
Synthetic diet, rat 341
Tadpole, larval history 188
Tail amputation in tadpoles 187
Tail regeneration in earthworms 172
Tail regeneration in the tadpole, effect of thyroid inhibitors on 181
Teeth, of rats, growth of 66
Thiourea, effect on regeneration 184
Thyroid inhibitors 181
Thyroid secretion in anuran metamorphosis 198
Thyroids and parathyroids 22
Thyroxin level in treated tadpoles 201
Tibia, growth of 45
Time of weaning, effect on growth 320
Tissue culture 69
Tissue extracts 1
Tumor formation, indirect effect of growth hormone on 31
Tumor inducing principle in crown gall 255
Tumor-producing fibroblasts 79
Tumors, ovarian 31
Vinyl ketone group 157
Viscera, growth of 20
Viscera, weight of 21
Wound healing as a limiting factor in carcinogenesis 260
X-ray, effect on hematopoietic cells 107
Zucker's coefficient 346
